Dealing with trauma requires professional intervention but not every institution, even a good one, is prepared to deal with cases of abuse. To make it easier for you to find a suitable support, we have created a tool that helps caregivers easily find a place offering help for a child victim of abuse.

This tool was developed within UE funded project BADEV

To do this, please go to https://pomoc.fdds.pl and enter your location to see the list of therapists available in your area.

Pins will show up on the map. By clicking on them, the name of the institution and it's contact information will appear highlighted in yellow in the left menu.

Website is browseable also in Polish.

This project has received funding from the European Union's Rights, Equality and Citizenship Programme (2014-2020) under grant agreement 764255 BADEV.

The content of this material represents the views of the author only and is their sole responsibility. The European Commission does not accept any responsibility for use that may be made of the information it contains.

You can also search for therapists working in Latvia and Estonia.

We also recommend reading the Expert Analysis on Psychological Assistance for Abused Children and their Families, which surveys the evidence-based models and methods of psychological counselling and psychotherapy intervention for abused children and their families.
